SKILLS

- ❖ **Java, Flutter**
- ❖ **HTML, CSS, JavaScript, Node JS, Express JS, Database Architecture**
- ❖ **Python, AI Automation, LLM Api Integration**

EDUCATION

- ❖ **Science | Dhaka College** Currently Studying
- ❖ **X (SSC) | R.B.Govt.H.S** GPA: 5.00 | 2024

EXPERIENCE

- ❖ **Freelance System Architect | Mateluxy Real Estate LLC** (2025)
I built CRM, PMS, & Mobile Application integrated with AI for them. which boosts their sales speed 75%
- ❖ **Senior Web Developer | Clipzoca** (2025)
I built their website and CRM system, which boosts their work 70% more- WordPress & PHP

ACADEMIC PROJECTS

- ❖ **Morning Brief**
An AI-integrated project that reads my emails and tasks on ClickUp, summarizing everything in a Telegram message. It provides brief descriptions and summaries of important emails in Notion, along with a dashboard showing whether I have any meetings, important emails, and spam messages. Essentially, it offers a complete summary of my day.
- ❖ **Speed Doctor**
A system integrated with AI to monitor the performance of a webpage. Its main motive is to provide data about website performance and issue and fixing guidelines to non-technical people. eg: if a website is slowing down for heavy usage of unoptimized images and videos, it says it in plain language, and suggests a fixing plan. It also shows the web page, performance, and seo score. I used Typescript, Lighthouse, and Playwright as the main technology stack for this.

POSITION OF RESPONSIBILITY

- ❖ **General Scretary | DCPC** (Currently working)
Successfully organized a Model United Nations Fest at my college in collaboration with the International Relations Club, attracting over 300 attendees. Also participated in the AI Summit in Rajshahi 2026.

HOBBIES

- Like to learn about new ai models and technologies and also have curiosities to explore blockchain technology.
